

ACCOMPLISH GLOBAL REPUTATION

The Perfect Gateway to Excelsior Quality Products

Master Group

Introduction

We are pleased to introduce as one of the leading manufacturer of Fiber Glass Tanks, Bath Tubs and other allied products. The company was established in 1995 in Karachi under the name and style of "Master Engineering".

The company has established and applies a quality management system which is certified in accordance to ISO: 9001-2008, Due to high quality products and services, We achieved Brand of the year award Two times in 2006-2007 & 2009-2010. Our policy has been always to achieve and sustain excellence in all our activities and to produce defect free products to meet customers requirement in time and at optimum cost. The aim of the company is to rely on science and technology to keep with the world level, to strengthen our management, to improve quality and to provide competent after sales and service to establish credibility with customer.

Master Tanks & Acrylic Bath Tubs has been exclusively designed and manufactured in accordance with the latest technology and international standards of quality. Wide range of food grade water storage tanks in various sizes are our standard products. For last two decades, Master Engineering has been an industry leader in the design, manufacturing and sale of high quality, cost effective fiber glass storage tanks for petroleum, Water and chemical markets.

We offer our clients with a wide range of attractive and elegantly designed Acrylic Bath Tubs. These are manufactured using high quality raw material such as acrylic. Our range is available in various sizes, colors and designs.

Our company has owned a good name in the market for its exclusive designs. Our range is designed according to the modern bathrooms and therefore gives the most elegant look.

Our most valued customers are "The United Nations, Government Sectors, Defence Forces, NATO Forces, National & Multinational Companies, Educational Institutions, Leading Industries, Hotels and Hospitals".

Quality Service Credibility
